

I am very concerned that Sinclair Broadcasting is going to be not only allowed to broadcast but, has the power to force their stations to broadcast this film that is clearly a biased film, intended to sway the public to vote their way.

I find this a dangerous precedent that can be used for either side. The consolidation of media does a disservice to us all.

We the public have counted on the FCC to be a good steward of the public airwaves. I ask that you reconsider your decision to allow Sinclair to go forward with this film.

Thank you
